## About me

After obtaining my diploma in accountancy, I began my professional career in administration and commerce in a small local company. Then, in 2004, I moved to Rome where I worked in a high-technology company, in administration, before settling in Varese in 2008.

I started working in Mendrisio in the biomedical sector, in administration and accounting.

I moved to Switzerland with my family at the end of 2008 and gained further experience in industrial companies in the Mendrisio area.

Since 2014, I have been working at Fiduciaria Mega, performing activities in the fields of accounting-administration, taxation and personnel management.
